Each year the Bureau of Vital Statistics prepares this report from information contained in the birth, death, marriage and divorce records filed. This data is useful in planning programs to meet public health needs, in providing baseline data for medical research, in preparing population estimates and projections, to name only a few of its varied uses in both the public and private sector.

The charts and tables in this report contain the information most frequently requested. Also included are tables containing selected data for the past thirty-five years which illustrate historical trends in vital statistics.

The Texas Department of Health takes pride in the timely publication of this report.

Texas Vital Statistics 1986

This publication includes the vital statistics data most frequently requested. Since this report is intended primarily as a reference document, it contains no analysis or interpretation of the data. Selected tables of general interest do contain data for a 35 year period and present historical trends.

Natality and mortality data are classified by county and city of residence of the mother for births and fetal deaths and by county and city of residence of the deceased for deaths. Marriages are reported by county in which the marriage license was issued and divorces are reported by county in which the divorce decree was granted.

Statewide birth and death rates are based on provisional population estimates published by the Bureau of the Census, U.S. Department of Commerce. The estimated population of Texas as of July 1, 1986 was 16,682,000.

The data presented in this report were compiled and tabulated by the statistical staff of the Bureau of Vital Statistics and the Bureau of Automated Data Services. The Report was printed by the Reprographic and Educational Services Division.

More detailed residence data as well as data by place of occurrence are available from the Statistical Services Division, Bureau of Vital Statistics, Texas Department of Health, 1100 West 49th Street, Austin, Texas 78756, (512) 458-7509. A fee may be charged for developing special reports.
